WORK EXPERIENCE

Fanzeal   Feb 2023 - Present
Senior Full-stack Developer

Fanzeal (fanzeal.com) is an innovative Swedish company leveraging blockchain technology to build fan engagement solutions in sports. The platform offers a comprehensive suite of interactive experiences, allowing fans to support their favorite clubs through various digital activities: purchasing NFT cards, participating in quizzes, predicting match score, and more.

One of the most successful projects that we've built so far is VfB Stuttgart Collectibles (collectibles.vfb.de).

Main responsibilities:
- Led front-end and mobile development using React & React Native
- Built admin dashboard in both front-end (Next.js) and back-end (Nest.js) to help administrators manage all the resources related to the platform.
- Worked with AWS Cognito, Lambda, API Gateway, DinamoDB, Route53, Fargate
- Participated in product development from the initial stages
- Provided technical guidance and mentorship to team members

Pangara AB   Feb 2020 - Feb 2023
Senior Full-stack Developer

Pangara AB (pangara.com) is a Swedish company that develops an innovative platform connecting clients with highly qualified talents.

Main responsibilities:
- Built a CRM platform in Laravel and front-end components in Vue.js
- Developed a low-code platform using Node.js and Vue.js
- Built a dashboard that interacts directly with K8S API, AWS services using Golang and Nuxt
- Setup CI/CD for the development team
- Assisted the devops engineer to setup Docker, K8S environments

InBusiness AS   July 2017 - Feb 2020
Full-stack Developer

InBusiness AS (inbusiness.no) is a Norwegian company specializing in the development of e-commerce solutions using WordPress.

Main responsibilities:
- Built, and maintained WordPress themes and plugins for Norwegian customers
- Led a small team of 5 developers:
  - Managed and distributed tasks to the team

- Communicated with customers

EngineThemes   July 2015 - July 2017
Full-stack Developer

EngineThemes (enginethemes.com) is a Vietnamese product company specializing in creation and sale of high-quality WordPress themes and plugins.

Main responsibilities:
- Built, and maintained WordPress themes and plugins
- Trained new members
- Supported the Customer Service team with technical issues

WM Marketing   July 2013 - July 2015
Full-stack Developer

- Designed layouts in Photoshop and converted them to HTML
- Built, maintained WordPress themes for Spa and Dental clients
- Managed Linux and Windows servers.
